Bio :

Neuronod is a French DJ and Producer based in Paris. After 10 years spent mixing different styles such as Drum&Bass, Techno or Dark Prog, he started to produce his own music in 2013.

Passionate about Science Fiction, he has always been attracted by deep, dark, atmospheric and psychedelic tracks.

He gathers this energy and all these different influences in his own productions, resulting in a powerful Dark Progressive, futuristic, technoïd and resolutely dancefloor.

After having released numerous tracks on different labels of the genre, he now represents the Indian label Occulta Records, on which he has been releasing for almost 5 years.
